BENCH SCIENCE

THE SHORT VERSION

Dr. Greg Newkirk is a PhD molecular biologist with 17 years at the lab bench and a warm, natural on-camera presence. Published in Nature Nanotechnology and ACS Nano, a U.S. patent holder and NDSEG Fellow, he now hosts The Dr Greg Show, a nightly live program that makes real science clear, accurate, and engaging for a broad audience, with 6M+ views since August 2025.

He translates complex science into plain, trustworthy language, which makes him a credible on-camera voice for health, wellness, biotech, pharma, and technology brands. Silver hair, blue eyes, plays 35 to 50. San Diego based, LA available, self-tape ready.

AVAILABLE FOR
